

Take Control with DRO Direct

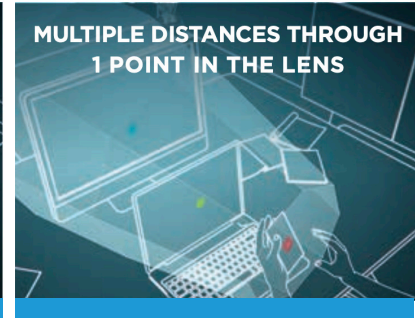

We are excited to announce DRO Direct as an alternative to your employer's vision plan! As open enrollment season approaches, there is a new option for eyewear and contact lens coverage. DRO Direct is a savings plan that allows you to break free from vision insurance. It enhances the purchasing power of your money while enabling you to get the high quality glasses and contacts you desire, with the high quality service you deserve. Start your enrollment in DRO Direct today by calling our office or visiting the Forms section of our website.

New Products

VARILUX  series

OTHER PROGRESSIVE LENSES

VARILUX® X SERIES LENSES™

Varilux X Series

We're proud to carry the new Varilux X Series progressive (no line bifocal) lenses. The state of the art lens design extends your near vision with more depth and volume minimizing the need to adjust your head to see sharply. Xtend technology allows you to capture high precision detail seamlessly within arm's reach and beyond. No more moving your head to find "just the right spot."

TRANSITIONS GEN 8 LENSES

Transitions Gen 8 Lenses

We now offer the newest Transitions Generation 8 Lenses! The performance and protection of Transitions lenses has been pushed to the limits in this newest version of a time tested technology. Generation 8 lenses darken 30% faster than past versions and clear to full indoor clarity at least 2 minutes faster than previous Transition lenses. They also block 100% of UV light and incorporate blue light blocking technology to help reduce eye fatigue from work on digital devices. Experience the protection and comfort of Transitions Generation 8 in your next pair of glasses!

Share YOUR Story

Drs. Deutscher, Rottinghaus & Oxandale Optometry has a long history. The practice has been around for more than 100 years, carrying on through a legacy of doctors training their successors and instilling the lessons learned over generations.

In honor of this notable continuum of care, we're searching for the patient who's been coming to the practice the longest. We would love to talk to you about the changes you've seen and the memories you have with the practice.

Please call us or email your name and when you first became a patient. We may feature you in the next newsletter!
